Notes:

The Deep Inlet THA will open on May 1, 2004 for commercial fishing at access hatchery chinook salmon. See mid-April ADF&G News Release for early season schedule.
NSRAA's cost recovery goal for Medvejie / Deep Inlet is 485,000 chum (3.88 million pounds) for the 2005 season.

A double rotation will be in effect from May 29-June 30 (2 seine and 4 gillnet days per week) .

Cost recovery fishing will begin some time around July 1.

Waters in Deep Inlet south of 56° 58.50' N. latitude will be closed to common property commercial harvest beginning June 30 to facilitate cost recovery efforts.

On July 3 a single rotation schedule will begin (1 seine day and 2 gillnet days per week) and remain in effect until this goal is met, or it becomes apparent that the goal can be met by harvesting fish outside the terminal harvest area (Deep Inlet THA).

When in the double rotaion, the mid-week seine day will alternate between Wednesday and Thursday, with the seine day on Wednesday the first week of double rotation, the seine day on Thursday the second week, etc.

Opening Times :

Seine - 5 a.m. - 8 p.m through August 7	6 a.m. - 9 p.m. beginning August 14
Gillnet - 5 a.m. - 8 p.m through August 11	6 a.m. - 9 p.m. beginning August 17
Troll - 12:01 a.m. - 11:59 pm on all dates shown above	
Times are subject to change.
