THIS SCHEDULE IS REVISED from pre-season version- July 19, 2006

The Deep Inlet THA will open on April 30, 2006 for commercial fishing to access hatchery chinook salmon. See mid-April ADF&G News Release for early season schedule. The western boundary line will be pulled in from it's normal position from May 1 -21. See ADF&G News Release for Map and exact location.

NSRAA's cost recovery goal for Medveje / Deep Inlet is 340,000 chum (2.7 million pounds) for the 2006 season.

Cost recovery fishing will begin some time around July 1.
