

NORTHERN SOUTHEAST REGIONAL AQUACULTURE ASSOCIATION, INC.

2017 Alaska Fish Culture Conference

When: January 24th, 25th and 26th, 2017

NSRAA is pleased to announce the dates of the 2017 Alaska Fish Culture Conference. The conference will be held the 24th through the 26th of January. We are currently trying to schedule relevant education and training opportunities on the Monday and Friday around the conference so hold off getting your tickets until an updated agenda is sent out in late July to see if you may be interested in those.

Where: Odess Theater-Sitka Fine Arts Campus

The conference will be held on the campus of the Sitka Fine Arts Camp in the Odess Theater. This location may be more well known as Allen Hall and part of the Sheldon Jackson College campus. The theater has undergone a multi-million dollar renovation recently and is a beautiful historic facility.

Schedule:

The schedule will be similar to the last conference in Kodiak with a day of presentations, followed by a day of local hatchery tours and ending with a second day of presentations. The agenda is still in development but there will be a call for presentations in the next few months. Those interested please contact Scott Wagner for a presentation slot.

Lodging:

We have worked with the Sitka Fine Arts Camp to make on campus housing available during the week at a significantly reduced rate from local hotel prices. For SJC alumni you may even be able to reserve your old dorm room. Reservations will be available online through the Sitka Fine Arts Camp website and single rooms for \$70 as well as double occupancy rooms for \$35/night/guest.

Web link; <http://fineartscamp.org/hosted-events-registration/>

For those of you desiring a little more refinement there are plenty of hotel/bed and breakfast options in Sitka. If you need assistance locating lodging please contact us.
