

2011 Deep Inlet Fishing Schedule

Overview

The Deep Inlet rotational schedule will be exactly as it was in 2010 (adjusted for dates), with one exception: a slight change to scheduling troll opportunity inside the THA in August. This change may affect the re-opening schedule after cost recovery is complete (details below).

Rotational Schedule (Refer to calendars below)

Chinook Management Period. Fishing will begin the week of May 29. There will be 3 weeks of Chinook management (Seine on Sun and Wed, Gillnet on Mon-Tue, Thu-Fri, and Troll on Sat).

Chum management will begin on Sunday, June 19, with Seine on Sun/Thu-Fri, Gillnet on Mon-Tue-Wed, and Troll on Sat. This schedule will continue through August 6, when the rolling schedule will begin SN-SN/GN-GN, until we close for cost recovery (CR). The most likely dates for closing for CR will be at the close of gillnet fishing on August 10, 14, 18 or 22.

The only change this season has to do with trolling inside the Deep Inlet THA after the CR closure. Last season, trollers fished the first two re-opening days after CR was complete. This will remain an option for the 2011 season, but if we can identify a two day period when there are abundant fish in the THA and we are not CR fishing, we can open the THA for trolling at that time – with a 24 hr notice. (This might occur if there is pink fishing and CR boats are not available to fish CR.) This will fulfill the commitment to the trollers and allow net fishing to resume two days earlier.

Re-opening Schedule

The re-opening schedule will remain the same as 2010 if trollers do not fish earlier as described above. If they do fish earlier, the rotational schedule will resume the day after CR/ brood collection is complete, with seiners fishing first: SN-SN/GN-GN. This schedule will continue until the end of the season (September 29 or earlier depending on the return).

Please see ADF&G News Releases for actual openings, closures, and gear restrictions for the Deep Inlet THA.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				1 SEINE	2 GILLNET	3 GILLNET
4 SEINE	5 SEINE	6 GILLNET	7 GILLNET	8 SEINE	9 SEINE	10 GILLNET
11 GILLNET	12 SEINE	13 SEINE	14 GILLNET	15 GILLNET	16 SEINE	17 SEINE
18 GILLNET	19 GILLNET	20 SEINE	21 SEINE	22 GILLNET	23 GILLNET	24 SEINE
25 SEINE	26 GILLNET	27 GILLNET	28 SEINE	29 SEINE End of Season	30	

Most likely dates to close for Cost Recovery: August 10,14,18,22. The schedule shown above should not change through the week of August 6. After that date the schedule will change depending on the closing date and duration of the cost recovery closure. Two TROLL days may occur during the cost recovery period with a 24 hour notice (**requirements: a large body of fish inside the THA and CR seiners fishing pinks or harvesting CR outside the THA**); these would replace the two TROLL days at RE-OPENING – the THA would re-open with two SEINE days and continue with the rolling schedule.

2011 Deep Inlet Cost Recovery / Commercial Harvest Plan

Total Return Projection: 1,060,000

CR Fish 82,600
Average Weight 8.0
CR Pounds 661,000
