

Deep Inlet Schedule 2014

2014 Deep Inlet Forecast:

1,170,000 chum

Range (464,000 – 1,790,000)

Note: This document reflects pre-season planning. Always refer to ADF&G News Releases for official schedule of openings, fishing boundaries & in-season changes. 3/6/2014

2014 Deep Inlet Cost Recovery

- No CR harvest expected.
- We may harvest fish in Silver Bay if we have fish in excess of broodstock needs.

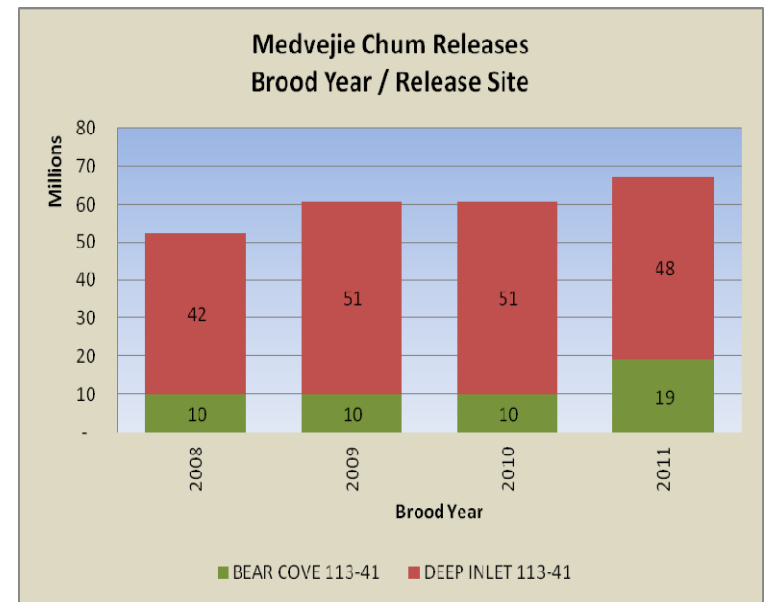

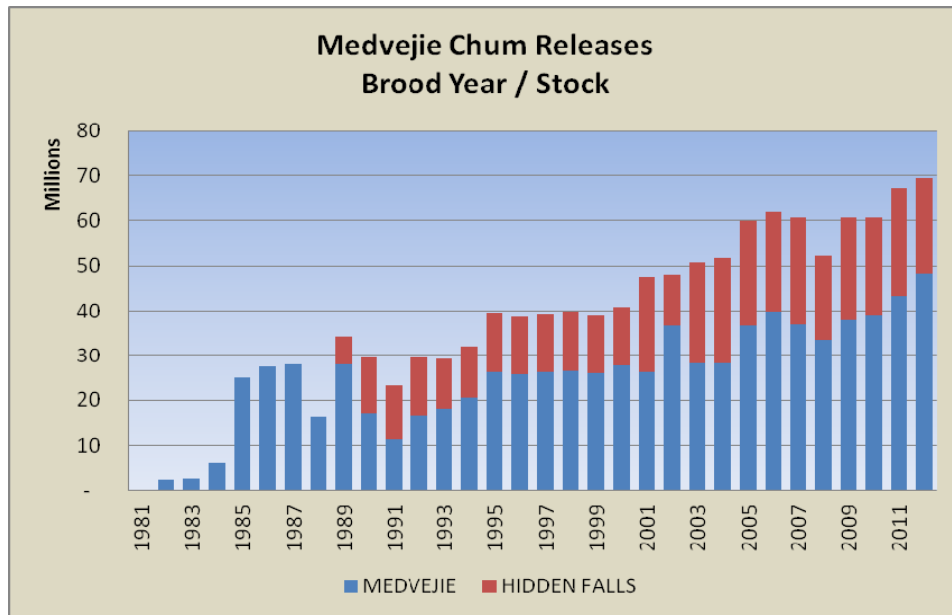

2014 Broodstock

- Broodstock Goal: 70,000 fish
- Re-opening plan if a Deep Inlet closure for broodstock is needed:
 - Re-open with a single troll day – the first day upon re-opening
 - NSRAA board decided NOT to allow the Troll day while CR is still in progress .
 - Minimum of 24 hr notice; preferably 48 hrs.
 - We will attempt to close after a gillnet day, reopen (after troll) with a seine day, adjusting schedule as needed to maintain a 1:1 ratio for the season.

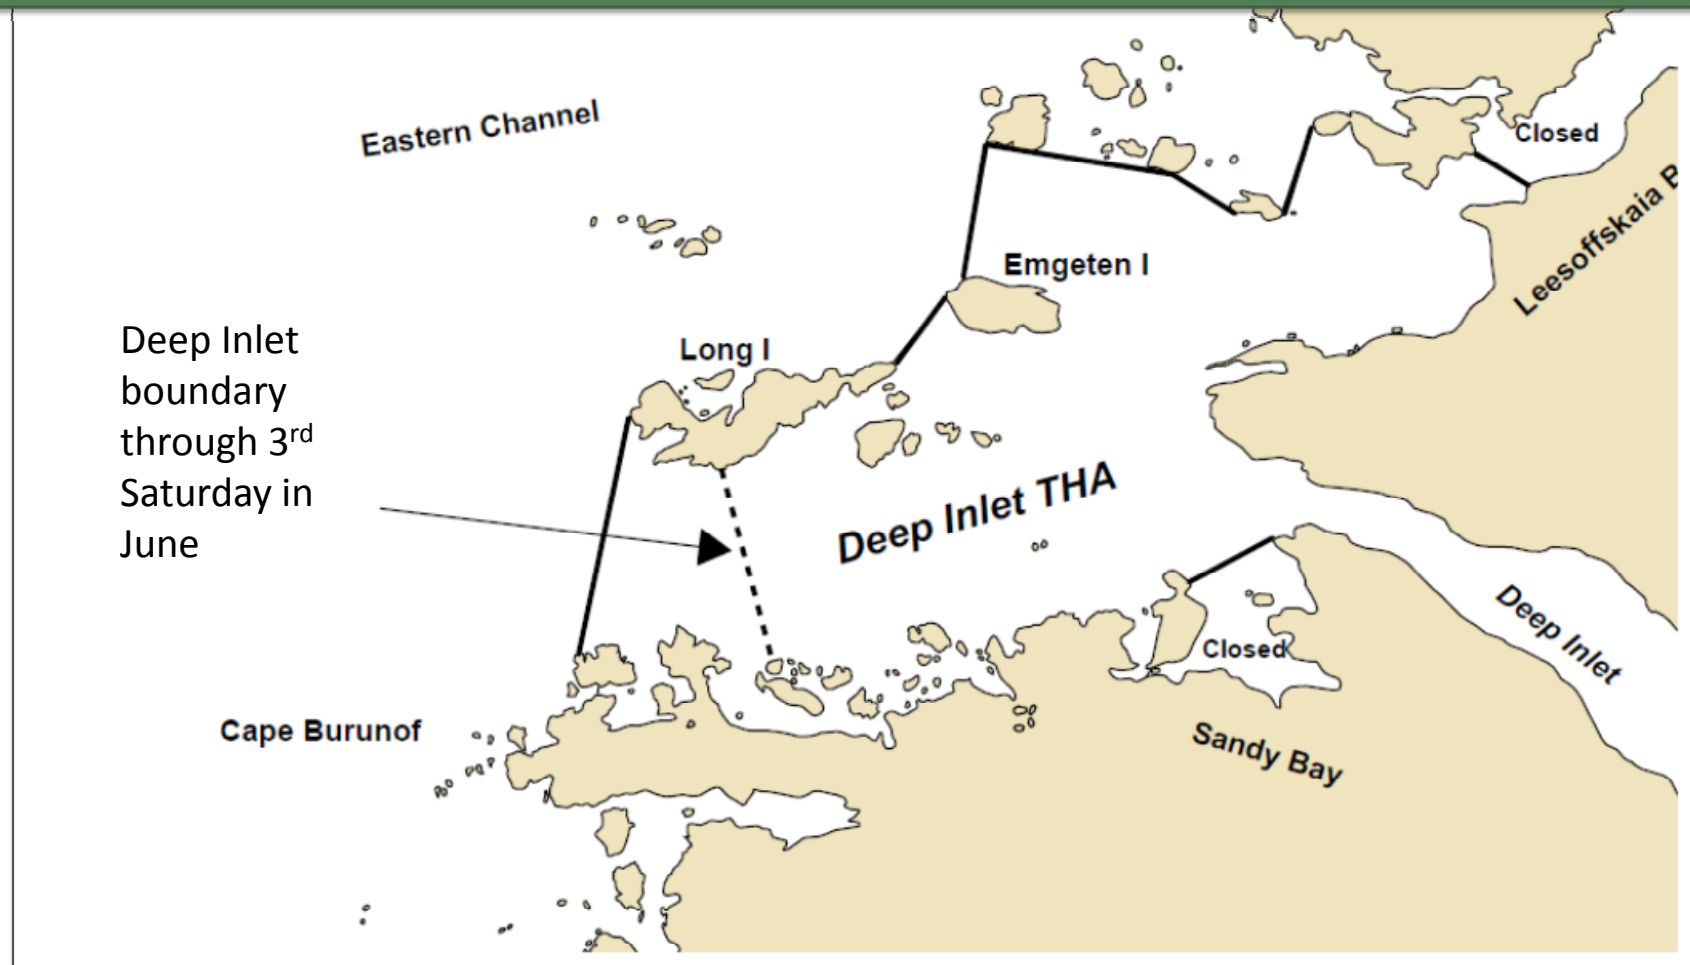

2014 Notes

- BY11 (age 3) first BY with increase Bear Cove release
- BY11 (age 3) 4.6M fry of 19M Bear Cove are 4.0 program

2014 Notes

Deep Inlet Terminal Harvest Area

Western line modification for early-season chinook management
135 degrees 20.75' W Longitude
