

NORTHERN SOUTHEAST REGIONAL AQUACULTURE ASSOCIATION, INC.

1308 Sawmill Creek Road

Sitka, Alaska 99835

Office: (907) 747-6850 Fax : (907) 747-1470 Email: Kenny_Gray@nsraa.org

Title: Traveling Maintenance Engineer

Location: All Hatcheries, Sitka AK

Compensation: \$30 - \$40 per hour, plus benefits

Close Date: Open until filled.

Starting Date: ASAP.

Northern Southeast Regional Aquaculture Association (NSRAA) is seeking qualified applicants for the Traveling Maintenance Engineer position at all NSRAA-operated hatcheries. This position is based in Sitka and will travel to Hidden Falls, Gunnuk Creek, Mist Cove/Deer Lake, Medvejie, Sawmill Creek, as well as remote chum release sites. This is a full-time ~40hr. per week position. The Traveling Maintenance Engineer, under the supervision of the Maintenance Manager, will be responsible for the maintenance, operation and construction of hatchery support facilities and equipment. The Traveling Maintenance Engineer is expected to apply their technical expertise to fish culture related hatchery challenges. Accordingly, this person will need to be a team player and have good problem-solving and organizational skills. To be successful, the Traveling Maintenance Engineer must be interested in learning about hatchery operations and needs to be innovative, creative, and attentive to detail. Flexibility and adaptability are also important characteristics for this position.

The demands of this position are many and varied. Formal training, post-secondary education, and/or experience in certain skill areas are desirable. Prior experience or the ability to become familiar with the following skills will be used to evaluate the applicant's suitability for this position:

- General carpentry, plumbing, painting
- Welding (aluminum, steel, plastics)
- Electrical (12-24 volt DC, 120/240 Volt AC, instrumentation & control)
- Equipment repair and maintenance (diesel engines, outboard motors, small gas engines, hydraulic pumps)
- Ability to learn and manage a complex water delivery system
- Refrigeration
- Heavy equipment operation
- Small boat operation and seamanship
- M.S. Office, Excel, networking and computer skills
- Ability to travel to out-of-town hatcheries

In addition, this person must be able to plan and develop cost estimates for maintenance-related projects, facilities, and equipment, and will be responsible for conducting preventive maintenance.

Northern Southeast Regional Aquaculture Association (NSRAA) is a private non-profit regional aquaculture association. NSRAA provides increased salmon fishing opportunities for both commercial fisherman and sport fishing enthusiasts alike. NSRAA hatcheries produce one of the largest Chum and Coho salmon returns in North America, along with a large Chinook return, making NSRAA one of the most economically important fishery enhancement programs in Southeast Alaska. Located in a semi-remote setting in the heart of Alaska's Tongass National Forest, opportunities for outdoor recreation are unsurpassed.

All interested applicants should submit an application and resume to Kenny Gray via one of the following means of contact: NSRAA Maintenance Manager, PH: 907 747-6850, 1308 Sawmill Creek Road, Sitka, AK 99835.
